

Up and Coming Events

There will be various times within this term that you and your child will have the opportunity to find out more about the transition into Year One.

- ♦ Transition Meeting with Parents (date to be arranged)
- ♦ Change over afternoon—when your child has the chance to meet their new teacher and visit their new classroom.

We also invite you to our 'Workshop in the Woods' on Monday 26th June from 2.00-3.10pm.

As we prepare for Year One it is advised that you encourage your child to become more independent and talk about their transition into a new class and a new teacher.

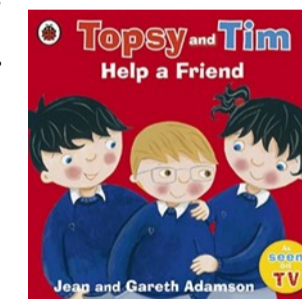

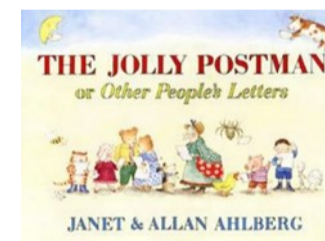

Can I help you?

This term the children in Foundation Stage will be learning about people who help us.

Please support us by helping your child to find out about this topic.

You can share books about different jobs. Talk to people in your family about the jobs that they do.

When I grow up I want to be...

Investigation

During this term children will be learning to show and express their own feelings. They will also develop their awareness of other people's feelings and learn to respect their differences.

We will also be investigating our local community and what it has to offer us through discussions.

Role Play

Children will have the opportunity to engage in role play relating to our topic.

They will be learning key words and using language to recreate different roles.

We are hoping to have visits from both the fire service and the police to talk about their role and the important job they do.

Creativity

We will be making 3D models of post boxes, fire trucks and our village. Children will be using tools and materials in different ways to construct their models.

We will then paint the models and discuss how we mix paint to make other colours.
